

Dear FCC, XM weather report stations are very helpful and useful to their subscribers. Since we pay for the service I am at a loss to see why the National Association of Broadcasters would feel that XM should not be allowed to continue with this beneficial service.

I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that is very useful to me and the satellite radio public.

Thank you for your attention to this matter.

Sincerely,

Nancy Hargrove.
